

HydraBoost Tab

CATTLE
CALF'UP

Dietetic complementary feed
For dehydrated calves, lambs and kids

PROPERTIES

Nutritional purpose: Stabilization of water and electrolyte balance to support the physiological digestion. HydraBoost Tab is designed to produce an oral rehydration solution for calves, lambs and kids. HydraBoost calf tab is an effervescent tablet, rapidly dissolved in drinking water. Made up of electrolytes, osmolytes and energy, the formula is designed correct dehydration, electrolyte loss and metabolic acidosis quickly.

WHEN DO I NEED HYDRABOOST TAB ?

- Stabilization of water and electrolyte balance to support the physiological digestion.
- Prevents dehydration.
- Helps to recover from dehydration and acidosis.

%DEHYDRATION	SYMPTOMS
5-6%	No obvious clinical manifestations, diarrhoea, strong sucking reflex
6-8%	Mild depression, skin needs 2-6 seconds to spring back into position after pulling , sunken eyes, weak, still able to drink milk
8-10%	Depressed, like to lie down, sunken eye sockets, dry gums, skin needs over 6 seconds to spring back into position after pulling
10-14%	Lie down, cold limbs, no elastic skin, coma
>14%	dead

DIRECTION FOR USE

- Oral route:
- Prepare solution by adding 1 tab of 50g per liter of clean tepid water.
 - Calf: Give 2 liters of solution twice a day over two to three days.
 - Lambs and kids: Half liter of solution twice a day over two to three days.
- It will be better not to mix HydraBoost Tab with milk !

INGREDIENTS

Glucose, Lactose, Sodium Carbonate, Potassium Chloride, Sodium Chloride, Sodium Bicarbonate, Organic Acids (Calcium Salts).

COMPOSITION ANALYSIS

Coarse ash..... 18.0 %
Sodium 5.5 %
Potassium..... 2.3 %.

SHELF LIFE

3 years in original packing.
Store at ambient temperature and out of direct sunlight.
After opening, use rapidly.

PACKAGING

All tabs are individually packed.
Box of effervescent tablets.
- 24 x50g.
- 100x50g.
