

# VETODENT™ 牙洁粉™

CAT

Bimeda®  
百美达

**A 100% NATURAL SOLUTION FOR YOUR PET'S ORAL HEALTH  
FIGHTING BAD BREATH, PLAQUE AND TARTAR**

## TRIPLE ADVANTAGES OF VETODENT

### 1. Visible effects

Efficacy and benefits on oral health after 6 weeks continuous use have been demonstrated by clinical trial<sup>①</sup>.

### 2. 100% natural and totally safe for long-term use

The main constituent is a natural *Ascophyllum nodosum* algae extract imported from Norway. It is totally safe for long-term use and there are no known side effects.

### 3. Easy to use

Depending on your pet's weight, just add half a scoop and up to 3 scoops on top of the daily ration. Brewer yeast has been included in the formulation of VetO'Dent™ Cat in order to enhance palatability.

## TRIPLE EFFECTS OF VETODENT™

- Prevents or reduces bad breath issues
- Fights the plaque and prevents tartar formation
- Prevents gingivitis and periodontitis

See reverse for usage instructions.

## HOW DO PROBLEMS OCCUR IN YOUR PET'S MOUTH

Food debris, fluids and chemicals of the saliva combined together constitute the perfect environment for bacteria living in the mouth to thrive and form a sticky biofilm on the teeth. This biofilm is what is called plaque. If not frequently removed, bacteria of the plaque will start accumulating minerals that will eventually form a thickening tartar coating around the teeth. They also produce acids that will attack the enamel resulting in tooth decay. As the tartar coating thickens, it will slowly reach areas under the gum and other types of bacteria will start colonizing. This first triggers inflammation (gingivitis) and may give rise to "pockets" in the gums where food debris can also be trapped.

The most obvious side effect of this whole process is well known from pet owners and can appear from the very early stage, that is bad breath. Besides, if not properly addressed plaque and tartar issues will ultimately lead to a breakdown of the bone supporting the tooth, which is why it's fundamental to take care of it right from the start and keep doing so all along your pet's life.

## PACKAGING SIZE

	5g/jar	20g/jar	40g/jar	120g/jar
VetO'Dent™ Cat	✓	✓	✓	

## COMPOSITION

- Ascophyllum nodosum extract ..... 90%
- Brewer yeast .....10%

## SPECIE

Cat

## RECOMMEND USAGE:

To be spread on top of pet's daily ration.

Body weight	Usage
<10kg	1/2-1 scoop per time, once a day
10kg-25kg	1-2 scoops per time, once a day
>25kg	2-3 scoops per time, once a day

## SHELF LIFE

3 years from manufacturing date.

## STORAGE

Keep in a cool and dry place, protect from light.

## PRECAUTIONS AND WARNINGS

Due to the rich iodine content this product is not recommended for pets being treated for hyperthyroidism. Does not contain soybean, wheat, gluten, animal protein, alcohol or xylitol.
